

Mitel Cordless Handset / Mitel Cordless Headset

– Business Challenges Solved

Challenge

How do I help people be more flexible when they are working at their desk?

Solution =

Mitel Cordless Accessories

Give them the option to use wireless telephony at their desks

I don't want to place a call on hold just to walk over to the fax machine

Use a cordless handset or headset to give people flexibility

I don't want to replace all of the phones I have already purchased

All existing Mitel hardware is supported. Leverage your existing investment

I want all of the features I had with my regular handset and headset

Feature rich, 100% transparency
