

SB67080

Expansion module

Extend call coverage and capabilities with the AT&T Synapse® SB67080 expansion module (EM). Compatible with the SB67030, SB67031 and SB67020 Synapse desksets, the EM optimizes call handling for those attendants who manage and monitor several simultaneous calls every day. A large LCD screen and programmable feature keys for up to 24 monitored extensions help reduce lost calls, increase the accuracy of call routing and shorten transaction times for those power users.

System features

Capacity: 100 extensions, 16 PSTN lines, 16 SIP trunks and PRI	Caller ID*, do not disturb (DND)
Supports multi-line appearances (MLA) or multi-call appearances (MCA)	System-wide and zone paging
